

# *The New eSERS: Your Hotline to SERS*

School Employees Retirement System of Ohio

Oct. 14, 2015

## Upgraded eSERS System: A Work in Progress

Our upgraded eSERS system is still in the process of being implemented.

As the electronic reporting system for SERS' employers, the upgraded eSERS will help make your responsibilities easier. Because most of your interactions with us will be performed through the eSERS portal, we want to make sure it is working properly.

With the upgraded eSERS, you will have access to additional functionality through a variety of applications. With the new applications, you will be able to correct Enrollment and Contribution Files, view financial and employee information, and complete Wage Certifications online.

We are excited about the new features and enhancements being made to eSERS. As soon as we know when the upgraded system will be available for use, we will schedule training sessions.

Thank you for your patience.
