List of Covered Drugs (Abridged formulary)

The use of generic medications are encouraged. AultCare/Aultra offers our members an open formulary design (which means the health plan may cover the costs of drugs not on the formulary list). Therefore, tier exceptions are not applicable. For example, a higher tier (Non-Preferred) medication may not be requested at a lower tier (Preferred) copay. Medication tiering may change due to generic availability. Medications listed under the Vigilant Drug Program are not covered under the plan. These medications offer little to no added clinical value over existing, less expensive alternatives that are covered under the formulary. See your plan guidelines for specific plan limitations. Certain medications may require Prior Authorizations, Step Therapy, or have Quantity Limitations. This list is subject to change. For the most current comprehensive list of medications, please visit our website.
