

Important Vaccination Information for: AETNA MEDICARE PLAN (PPO)

The Centers for Disease Control and Prevention recommends the following adult immunization schedule:

- **COVID:** Vaccination is recommended for everyone age 6 months and older.
- **Flu:** One dose every year.
- **Pneumonia:** Pneumococcal conjugate vaccine (PCV15 or PCV20) for all adults 65 years or older who have never received any pneumococcal conjugate vaccine or whose previous vaccination history is unknown.
- **Respiratory Syncytial Virus (RSV):** Adults 60 years and older should talk to their health care provider about whether the RSV vaccination is right for them. It is given as a single dose.
- **Shingles:** Two doses of Shingrix 2-6 months apart for adults age 50 or older regardless of past shingles episode or Zostavax vaccine.

These vaccines and their administration are covered at 100%.

IF YOU GO TO A DOCTOR'S OFFICE

COVID, Flu, or Pneumonia	Show your Aetna Medicare ID card <ul style="list-style-type: none"> ▪ Standard and high-dose flu vaccines are covered.
RSV or Shingles	Show your Express Scripts ID card

IF YOU GO TO A PHARMACY

COVID, Flu, or Pneumonia	Show your Aetna Medicare ID card <ul style="list-style-type: none"> ▪ Standard and high-dose flu vaccines are covered.
RSV or Shingles	Show your Express Scripts ID card <ul style="list-style-type: none"> ▪ The shingles vaccine and its administration are covered at 100% but you must use a provider that accepts Medicare. ▪ You do NOT need a prescription to receive the shingles vaccine in Ohio. If you live outside of Ohio, check with the pharmacy.

If the doctor provides any other services during your appointment, you may be responsible for an office co-pay. If you are asked for payment at the doctor's office or pharmacy, you are responsible for paying the bill and requesting reimbursement from the plan providing coverage. Ask for an itemized bill and proof of payment.
