

Important Vaccination Information for: AULTCARE PPO

The Centers for Disease Control and Prevention recommends the following adult immunization schedule:

- **COVID:** Vaccination is recommended for everyone age 6 months and older.
- **Flu:** One dose every year.
- **Pneumonia:** Pneumococcal conjugate vaccine (PCV15 or PCV20) for all adults 65 years or older who have never received any pneumococcal conjugate vaccine or whose previous vaccination history is unknown.
- **Respiratory Syncytial Virus (RSV):** Adults 60 years and older should talk to their health care provider about whether the RSV vaccination is right for them. It is given as a single dose.
- **Shingles:** Two doses of Shingrix 2-6 months apart for adults age 50 or older regardless of past shingles episode or Zostavax vaccine.

IF YOU GO TO A DOCTOR'S OFFICE
